Take your business to the next level – with fully integrated unified communications

VITAL VoIP Cloud PBX is an easy-to-use cloud-based unified communications service that helps employees to be more productive and collaborative with a full-featured phone system, combined with audio/video/chat/content sharing, and conferencing.

Whether in the office or remote, Vital VoIP Cloud PBX seamlessly integrates all your communication tools – desktop phones, mobile phones, and computers – into one manageable solution oriented around your employee’s needs and workstyles.
Highly reliable

The Vital VoIP voice network is purpose-built for reliability

- 16 North American datacenters provide redundancy and minimize latency
- Stringent prequalification guidelines and VoIP network testing help ensure a reliable connection and crystal-clear voice quality

Simplified scaling & management

Vital VoIP scales according to the needs of any business

- Order service according to the number of users or resources needed today; pay only for what is used
- Ordering additional service is easy and can be spun up quickly
- Scales to a large number of users per business

Increased productivity & collaboration

Vital VoIP makes a more productive and efficient workforce

- Mobile devices interact seamlessly with the corporate phone system
- Anywhere, anytime, and on any device, creating a more flexible workforce
- Video conferencing and screen sharing empowers collaboration in real time

Business continuity

Ensure that you never miss an important business call

- The Vital VoIP mobile app has full business phone functionality to be used in the event that desk phones become unavailable
- Cloud based systems are immune to local outages. Vital VoIP will try all user devices, then dial phone numbers like cell phones, hunt groups, or other auto attendants.

Lower cost

No PBX hardware to buy, install, manage, upgrade or replace

- Lower infrastructure and operating costs compared to traditional phone service
- Reduces infrastructure and operating costs; no additional hardware to buy
- Consolidates voice and data onto one network
- Flat, per-user rates with unlimited domestic local & long distance calling

VITAL VOIP PRODUCTIVITY FEATURES

Vital VoIP Desktop App
The Vital VoIP desktop app acts like a desk phone, empowering employees to be more effective and efficient with call management.

- 5 Concurrent Calls
- Multiple Accounts
- Conference
- Hold and Park
- Blind Transfer/Attended Transfer
- Do not disturb (DND)
- 50 BLF (Hints)/Speed Dialing Key
- Auto Answer
- Video Call

Vital VoIP Mobile App
The Vital VoIP mobile app enables a mobile device to become a communications endpoint for the Vital VoIP service. Employees can now call or receive calls through the corporate phone system and utilize enterprise-level calling features, no matter where they are.

- All the most important features of your desk phone, right on your mobile device
- Park Pickup allows the smartphone to pick up calls that are on hold at the office.
- Rings your desk and mobile phone simultaneously - no more missed calls.

Video Conferencing & Screen Sharing
Vital VoIP includes MEET, an easy-to-use, reliable video collaboration tool. Includes:

- HD video conferencing eliminates unnecessary travel and empowers teams with remote members to be more productive.
- Screen sharing allows computer desktop to be shared in real-time, improving collaboration and speed of decision making.
- Includes a conference dial-in number, and custom URLs for meetings.
